Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-19, drawn to a method for producing an artifacts-corrected image of a negative impression in a recipient jaw, classified in class 382, subclass 128.

II. Claims 20-30, drawn to a method for producing a model of a recipient jaw from which a drilling template is machinated, classified in class 382, subclass 154.

III. Claims 31-43, drawn to a digital image merging system, classified in class 382, subclass 284.

Inventions are related as combination/subcombinations. Inventions I-III in this relationship are distinct if it can be shown that (1) the combination I as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination II has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because I does not require such as the producing of 3D digital image or a digital merging system. The subcombination II has separate utility

Art Unit: 2624

such as producing a 3D digital image of the recipient jaw. The subcombination III has separate utility such as receiving and merging the first and second digital images.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
